Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

10/510,506

Applicant(s)

VON DER KAMMER ET AL.

Examiner

Chang-Yu Wang

Art Unit

1649

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on August 23, 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-21 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☒ Claim(s) 1-21 are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, 19, drawn to a method of diagnosing or monitoring a neurodegenerative disease by determining the activity/level of ADPRTL1.

Group II, claim(s) 8, drawn to a kit for diagnosing a neurodegenerative disease.

Group III, claim(s) 9, drawn to a method of treating/preventing a neurodegenerative disease by administering a subject with an agent regulating ADPRTL1.

Group IV, claim(s) 10, drawn to a modulator of an activity/level of ADPRTL1.

Group V, claim(s) 11-12, drawn to a recombinant non-human animal of ADPRTL1.

Group VI, claim(s) 13-18 and 20, drawn to a method of using the recombinant non-human animal of ADPRTL1 in screening modulators of an activity/level of ADPRTL1.

Group VII, claim(s) 21, drawn to a method of using an anti-ADPRTL1 antibody.

Art Unit: 1649

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. The 1st claimed invention is drawn to a method of diagnosing or monitoring a neurodegenerative disease by determining the activity/level of ADPRTL1. As stated in p. 3-5 in the specification and was also found in the International Search Report, ADPRTL1 is known in the art which has no special technical feature that defined the contribution over the prior art Kirckhoefer et al. (J. Cell Biol. 1999. 146: 917-928) and Still et al. (Genomics 1999. 62:533-536). Since the 1st claimed invention has no special technical feature, it cannot share a special technical feature with the other claimed inventions.

4. In addition, Group I is drawn to a technical feature of a method of diagnosing or monitoring a neurodegenerative disease by determining the activity/level of ADPRTL1, which does not share a common corresponding technical feature with the rest of groups. Group II is drawn to a technical feature of a kit for diagnosing a neurodegenerative disease, which does not share a common corresponding technical feature with the rest of groups and is not required by Groups III-VII. Group III is drawn to a technical feature of a method of treating/preventing a neurodegenerative disease by administering a subject with an agent regulating ADPRTL1, which does not share a common corresponding technical feature with the rest of groups and the patient populations are not the same as in the Group I and also are not required by the rest of Groups. Group IV is drawn to a technical feature of a modulator of an activity/level of

Art Unit: 1649

ADPRTL1 which does not share a common corresponding technical feature with the rest of groups and is not required by Groups I, II, V-VII. Group V is drawn to a technical feature of a recombinant non-human animal of ADPRTL1 which does not share a common corresponding technical feature with the rest of groups and is not required by Groups I-IV and VII. Group VI is drawn to a technical feature of a method of using the recombinant non-human animal of ADPRTL1 in screening modulators of an activity/level of ADPRTL1 which does not share a common corresponding technical feature with the rest of groups and is not required by Groups I-V and VII. Group VII is drawn to a technical feature of a method of using anti-ADPRTL1 antibody which does not share a common corresponding technical feature with the rest of groups and is not required by the rest of Groups. Thus, Applicant's inventions do not have a single inventive concept and so lack unity of invention.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). In order to be fully responsive, Applicant is required to elect a single group from designated Groups I-VII to which the claims will be restricted, even though the requirement is traversed. The subject matter for examination will be restricted to the extent of the subject matter of the elected group.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1649

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry of a general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (571) 272-1600.

8. Papers relating to this application may be submitted to Technology Center 1600, Group 1649 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Should applicant wish to FAX a response, the current FAX number for Group 1600 is (571) 273-8300.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chang-Yu Wang, Ph.D. whose telephone number is (571) 272-4521. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet Andres, Ph.D., can be reached at (571) 272-0867.
